

Family Game Night

Looking for fun games and activities to play at home with the family?

Here is my suggestion of a game that promotes language skills!

Guess Who? (ages 5+): [Guess Who?](#) is a classic choice for language that taps into many skills. This game is great for formulating questions, answering questions, describing, vocabulary, processing, short term memory and strategic thinking. There are several versions of the game including a [Star Wars Edition!](#)

Have fun!
